

### ● Application

S-LE1 magnetic starter is mainly applied to circuit of AC 50/60Hz, voltage up to 550V for far distance making and breaking circuit and frequently starting and controlling motor. It has the features of small volume, light weight, low power consumption, high efficiency, safe and reliable performance etc.

### ● main technical parameter

Enclosure	S-LE1-09 and 12	Double in insulated, protected to IP429(3) or IP659(4)									
	S-LE1-18 and 25	Double in insulated, protected to IP427(3) or to IP557(4)									
	S-LE1-32 and 95	Metal, IP55 to IP 559									
Control (2 pushbuttons mounted on enclosure cover)	S-LE1-09 and 95	1 green Star button "1" 1 red Stop/Reset button "O"									
Connections	S-LE1-09 and 95	Pre-wired power and control circuit connections									
Standard control circuit voltages											
Volts	24	42	48	110	220/230	230	240	380/400	400	415	440
